(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$.....
- 12. Construction work will begin on or before Existing
- 13. Construction work will be completed on or before Oct. 31, 1965
- 14. The water will be completely applied to the proposed use on or before Oct. 31, 1965
(see remarks below)

L. E. Weltner
(Signature of applicant)

Remarks: The floods of Dec. 1964 and Jan. 1965 caused a large land-slide that completely demolished the diversionary features of the water supply system belonging to L. E. Weltner. The aforesaid water system is authorized by Water Permit No. 15343. The permit being applied for herein is for substitute water from a slightly different source. It is requested that rights on the original source be reserved until the silt and debris have flushed away at which time (approx. 3 years) this applicant proposes to divert water once more from said source. The substitute stream source does not have adequate flow in summer.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed0.02..... cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed creek

The use to which this water is to be applied is domestic use of four families including the irrigation of not to exceed one-half acre lawn and garden

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 23, 1966

Actual construction work shall begin on or before January 3, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968..

Complete application of the water to the proposed use shall be made on or before October 1, 1969..

WITNESS my hand this 3rd day of January, 1967.
