(Signature of applicant)

Remarks: I have just recently purchased this property and realize that there are three (3) other
 appropriations from this source, but I would like to hope that this filing will prevent any future appropriations.
 This property is in an area that could be developed for the future either residential or commercial, and I would
 on may wish to develop as such. At present all over flow that is not being used runs in the 20 acre tract and
 this permit will give me the right to flood it out on the lands or a portion thereof.
 All of the canal works are in and were there before I purchased this property. I propose to pump the excess
 water from the spring into the canal works for distribution.

STATE OF OREGON, }
