**\*APPLICATION FOR PERMIT**

CERTIFICATE NO. **38869**

# To Appropriate the Public Waters of the State of Oregon

I, Dean Lloyd Babcock  
(Name of applicant)  
of Route 3, Box 72 Milton Freewater, Oregon 97862  
(Mailing address)  
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is West prong of Little Walla Walla River  
(Name of stream)  
a tributary of The Walla Walla River

2. The amount of water which the applicant intends to apply to beneficial use is  
cubic feet per second not less than 120 GPM & not more than 220 GPM **0.75 cubic ft per second**  
(If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is Irrigation  
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)  
Supplemental irrigation to an existing right

4. The point of diversion is located 150 ft. N and 1320 ft. W from the SE  
(N. or S.) (E. or W.)  
corner of NE 1/4 of sec 22 t6n R35e.w.m. (or and) 1320 ft W and 150 ft N of the  
(Section or subdivision)  
SW 1/4 sec E 1/4 Cor Sec 22 SW 1/4 NE 1/4

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 of NE sec of Sec. 22, Tp. 6N  
(Give smallest legal subdivision) (N. or S.)  
R. 35 E, W. M., in the county of Umatilla  
(E. or W.)

5. The Pipe Line to be not more than 3600ft  
(Main ditch, canal or pipe line) (Miles or feet)  
in length, terminating in the SE 1/4 of Sec. 22 & 22, Tp. 6N  
(Smallest legal subdivision) (N. or S.)  
R. 35 E, W. M., the proposed location being shown throughout on the accompanying map.  
(E. or W.)

## DESCRIPTION OF WORKS

### Diversion Works—

6. (a) Height of dam \_\_\_\_\_ feet, length on top \_\_\_\_\_ feet, length at bottom \_\_\_\_\_ feet; material to be used and character of construction \_\_\_\_\_  
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate \_\_\_\_\_  
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description \_\_\_\_\_  
(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\*A different form of application is provided where storage works are contemplated.

\*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 1740 ft.; size at intake, 4in in.; size at ..... ft. from intake ..... in.; size at place of use 4in in.; difference in elevation between intake and place of use, 50 ft. Is grade uniform? no Estimated capacity, 220 gpm sec. ft. 5 miles north and 1/2 mile east of the town of Milton Freewater, Oregon or 1/2 mile east and 1 1/4 miles south of the state line

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6N	35E	22X & 22X		<del>52</del> 50 4/10 A
6N	35E	22X	SW 1/4 NE 1/4	29 60/100 A
6N	35E	22X	NW 1/4 SE 1/4	20 44/100 A
				50 4/100
				29.6
				20.99
				50.09

(If more space required, attach separate sheet)

(a) Character of soil ..... sandy loam

(b) Kind of crops raised ..... hay grain & row crop

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? NO  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec. ...., Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

10. (a) To supply the city of .....  
..... County, having a present population of .....  
(Name of)  
and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$..... \$ 25.00.....
- 12. Construction work will begin on or before ..... March 1, 1966.....
- 13. Construction work will be completed on or before ..... March 2, 1966.....
- 14. The water will be completely applied to the proposed use on or before ..... June 30.....

*Dean L. Babcock 3-30-66*  
(Signature of applicant)  
Dean L. Babcock

Remarks: Why I file for this water is that latter in the summer my well goes down so far that I can not pull water out of it with my present water system and my financial budget does not let me buy a new system. This surplus water that could be used to a good purpose right now and there is more than enough water for all uses on the ditch at this time of year. Water does not get short here until about the middle of June and I would like to use this water up to that time. I have used the water in past years but now our new water master tells me I have to fill for a surplus water permit. At my point of diversion I measured the water with a rule which was on 3-24-66 water level 77in wide & 37in deep 3/4 mile down stream at the state line 61in wide 41in deep and running faster. If you think this permit can be granted would you please send me a note to that effect so I can start to irrigation right away Thank you very kindly, Yours Truly

*Dean L. Babcock*  
Dean L. Babcock

P.S. Chris Wheeler, Did you use to live on the old highway below Friendale school?

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for ..... ~~correction and completion~~ ..... correction.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~June 6~~ July 18, 19~~66~~ 66

WITNESS my hand this ~~6th~~ 18th day of ~~April~~ May, 19~~66~~ 66

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.75 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from West prong Little Walla Walla River

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, provided further that although declared herein to be for supplemental irrigation the right allowed may, in the interest of conserving the ground water supplies, be exercised at times when water is available in the ground water supply provided that the total quantity diverted from all sources of supply does not exceed the limitation allowed herein, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

March 31, 1966 for 0.49 cfs

The priority date of this permit is May 23, 1966 for 0.26 cfs

Actual construction work shall begin on or before January 18, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968

Complete application of the water to the proposed use shall be made on or before October 1, 1969

WITNESS my hand this 18th day of January, 1967
