By

STATE OF OREGON, County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed2.07........... cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Fields. Creek and John Day. -Biver being 0.62 cfs from Fields Creek for irrigation and 1.45 cfs from John Day River for supplemental irrigation The use to which this water is to be applied is ...irrigation and supplemental irrigation..... If for irrigation, this appropriation shall be limited to1./40...... of one cubic foot per second or its equivalent for each acre irrigated ... and shall be further limited to a diversion of noteto exceed 5 acre feet per acre for each acre irrigated during the irrigation season of each year from John Day River and shall be further limited to a diversion. of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation. season of each year from Fields Creek, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein. and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The priority date of this permit is July 19, 1966 Actual construction work shall begin on or before March 23, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968... Complete application of the water to the proposed use shall be made on or before October 1, 19.69... WITNESS my hand this23rd....... day ofMarch. STATE ENGINEER

Application No. 7235
