Remarks: This application recognizes prior right of John M. Conrad on the east fork of this unnamed creek. Mr Conrad has agreed that we use the same pump and pipeline now in existence, except for additional pipe to my point of use.

This water, will be supplemental to other water used on this acreage that is in short supply during dry seasons, as creek furnishes less than right permits.

This Application will only take water intermittently after Mr Conrad's rights are served, in co-operation with him, to the best conservation and beneficial use of available water up to the amount allowed in this application.
