, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is unnamed stream

(Name of stream)

, a tributary of North Powder River

2. The amount of water which the applicant intends to apply to beneficial use is 0.485

cubic feet per second.

(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation

(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 577 ft. S and 990 ft. E from the NW

(N. or S.)

(E. or W.)

corner of SW 1/4 SE 1/4 of Section 17

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 SE 1/4 of Sec. 17, Tp. 7 south

(Give smallest legal subdivision)

(N. or S.)

R. 38 E, W. M., in the county of Baker

(E. or W.)

5. The main ditch to be 1300

(Main ditch, canal or pipe line)

(Miles or feet)

in length, terminating in the SW 1/4 SE 1/4 of Sec. 17, Tp. 7 S

(Smallest legal subdivision)

(N. or S.)

R. 38 E, W. M., the proposed location being shown throughout on the accompanying map.

(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom

feet; material to be used and character of construction

(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate The springs will flow by natural channel into a

(Timber, concrete, etc., number and size of openings)

plowed ditch.

(c) If water is to be pumped give general description

(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

31924

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) one foot feet; width on bottom one feet; depth of water approx. 2 inches feet; grade thirty (30) feet fall per one thousand feet.

(b) At 1300 feet miles from headgate: width on top (at water line) 1/2 foot feet; width on bottom 1/2 foot feet; depth of water approx 2 inches feet; grade twenty (20) feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
7 South	38 East	17	SE 1/4 SE 1/4	Total 30
"	"	"	"	23 Supplementary
"	"	"	"	7 additional

(If more space required, attach separate sheet)
silt loam

(a) Character of soil
(b) Kind of crops raised pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.
(b) Quantity of water to be used for power sec. ft.
(c) Total fall to be utilized feet.
(Head)
(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

Legal subdivision
Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

..... County, having a present population of
(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$..... 100

12. Construction work will begin on or before complete

13. Construction work will be completed on or before complete

14. The water will be completely applied to the proposed use on or before now being used.

William A. Swan J.
(Signature of applicant)

Remarks: This spring rises on my property and is used up almost entirely on my land. Only a small amount trickles off. I'm not sure this filing is even necessary, but I am presently registering a protest on a filing on springs which have always come onto my property and were never formally filed on by the previous owners, and I don't want to chance losing these.

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.485 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 30, 1966

Actual construction work shall begin on or before April 20, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 20th day of April, 1967
