(Size and type of pump)
will be constructed next to overflow ditch and Snake River and a 10 horse end driven centrifugal pump will be installed with a 4" suction and a 4" discharge to work under an 84 pound back pressure. Motor on pump is to be electric driven.

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

160068, 160069 Pipe Line

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 4200 ft.; size at intake, 4 inch in.; size at 1700 ft. from intake 1 1/2 in.; size at place of use 2 1/2 in.; difference in elevation between intake and place of use, 10 ft. Is grade uniform? yes. Estimated capacity, 140 gal. per min.

8. Location of area to be irrigated, or place of use picnic area, Ontario State Recreation area.

Table with 5 columns: Township (17 S), Range (47 E), Section (33), Forty-acre Tract (S.W. 1/4 of N.E. 1/4), Number Acres To Be Irrigated (10.0 acres including future proposals)

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec. of Tp., R., W. M.

(f) Is water to be returned to any stream? (Yes or No)

(g) If so, name stream and locate point of return Sec., Tp., R., W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

~~(b) If for domestic use state number of families to be supplied~~

IRRIGATION ONLY

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 7,450.00

12. Construction work will begin on or before November 1, 1966

13. Construction work will be completed on or before December 31, 1966

14. The water will be completely applied to the proposed use on or before June 30, 1967

x *Richard J. McCosh*
(Signature of applicant)

Remarks: This is an application for irrigation use. All potable water used in park will be obtained from the City of Ontario's domestic water supply.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 3, 1967.

WITNESS my hand this 2nd day of November, 1966

CHRIS L. WHEELER

STATE ENGINEER

STATE ENGINEER
BY JAMES W. COUCH

ASSISTANT

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Snake River

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 24, 1966

Actual construction work shall begin on or before June 9, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969.

Complete application of the water to the proposed use shall be made on or before October 1, 1970.

WITNESS my hand this 9th day of June, 1967.

Chris L. Wheeler
