Remarks:

The E 1/2 of the W 1/2 of Sec. 31 - 38 - 20 has for the past twenty years been into natural meadow and has always had the water from Thomas Creek to irrigate same, More water is now being converted out of Thomas Creek through the old Wade-Snyder Ditch to the NE 1/4 of Sec. 26-38-19 and to get the same proportion of water we have always had, it will be necessary that we get the seepage and wastewater coming off from the NE 1/4 of Sec. 26 - 38 - 19 which formally came down the Old Thomas Creek channel onto the meadow land in Sec. 31 T 38 R 20 E.
