Remarks: The water desired to be appropriated is from a small stream which flows through the applicant's lands which she desires to use for domestic and irrigating purposes on said tract of land. In view of the smallness of this creek the applicant respectfully asks Hon. John H Lewis, as State Engineer of the State of Oregon, to suspend the rule requiring the maps to be furnished with said application to come up to the requirements of the printed rules and ask that in lieu thereof the accompanying tracings be accepted, and particularly in view of the fact that the point of diversion and pipe lines are all located upon applicant's lands and the distance very short, and the tract to be irrigated very small.
