CASCADE HEAD RESORT INC  
By D. Michael Powell - Pres

Remarks: The land on which this water is to be used is being developed as a resort which will include a lodge, homes, and swimming pools. Due to the size of the development it will take several years to put the full amount of water in this appropriation to a beneficial use. Our present plans are to enlarge the water distribution system as the development requires it; the whole development project will be completed within five years. The lodge complex will probably include a restaurant, service station and other commercial facilities of a similar nature.
