STATE ENGINEER
SALEM OREGON

Permit No. 33237

CERTIFICATE NO. 37791

*APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Gygi and Engel, a co-partnership consisting of Robert N. Gygi & Bruce L. Engel
(Name of applicant)
of 707 Corbett Building, Portland
(Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation _____

1. The source of the proposed appropriation is unnamed stream and reservoir
(Name of stream)
Bummer Creek
(Name of stream), a tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is _____
cubic feet per second. 0.20 c.f.f.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is recreation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 368 ft. N and 662 ft. E from the SW
(N. or S.) (E. or W.)
corner of Section 24, in the County of Benton.
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 SW 1/4 of Sec. 24, Tp. 14S
(Give smallest legal subdivision) (N. or S.)

R. 8W, W. M., in the county of Benton
(E. or W.)

5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____
(Smallest legal subdivision) (N. or S.)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 14 feet, length on top 200 feet, length at bottom 150 feet; material to be used and character of construction existing earthen dam with
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)
wasteway around South end

(b) Description of headgate 12" concrete culvert drain at bottom of dam; 30" steel culvert overflow approximately 4' below top of dam
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____
(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use for recreation

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
14S	8W	24	SW1/4 SW1/4	

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

(Name of) County, having a present population of

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before already constructed

13. Construction work will be completed on or before

14. The water will be completely applied to the proposed use on or before It is now so applied.

GYGI and ENGEL

(Signature of applicant)

Partner

Remarks: This permit application covers waters flowing through an unnamed

creek on property just purchased by applicant. An earthen dam across the bed of said stream has existed for a number of years and the approximately 5-acres lake or reservoir created thereby is shown on the 1956 U. S. Geological Survey map of the area. However, no reservoir permit or appropriation permit for the body of water is on record. We are herewith applying for the permit to appropriate the flow of said creek into the reservoir. Except as may be necessary to fill the reservoir after drainage or low water periods, the creek flow will be allowed to pass through an outlet and an overflow in the said dam. The waters in the reservoir will be used for fishing, boating, swimming and picnicking.

The legal description of the property upon which the water will be used is: That part of the SW1/4 SW1/4 of Section 24, T14S, R8W, lying East of County Route 15.

STATE OF OREGON, } ss.
County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~November 20th~~, 19~~67~~
July 8th 68

WITNESS my hand this ~~10th~~ day of ~~September~~, 19~~67~~

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.10 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream and reservoir to be constructed under application No. R-43687, permit No. R-5252

The use to which this water is to be applied is recreation

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated _____

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 6, 1967

Actual construction work shall begin on or before September 24, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970.

Complete application of the water to the proposed use shall be made on or before October 1, 1971.

WITNESS my hand this 24th day of September, 1968

Chris L. Wheeler
