*APPLICATION FOR PERMIT

ASSIGNED, See Misc. Rec., Vol. 4 Page 2208

To appropriate the Public Waters of the State of Oregon

We, Ensured Premium Financing Company
(Name of applicant)

of P. O. Box 1657, Klamath Falls
(Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Williamson River
(Name of stream)

, a tributary of Upper Klamath Lake

2. The amount of water which the applicant intends to apply to beneficial use is 6.75

cubic feet per second. 3.75 c.f.s. for Irrigation and 3.0 c.f.s. for gravel washing
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation and Gravel Washing
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

(see Remarks)

4. The point of diversion is located ft. and ft. from the
(N. or S.) (E. or W.)

corner of N 57° 45' W 3330.1 feet from the South Quarter-section corner
(Section or subdivision)

of Section 20, T. 35 S., R. 7 E., W.M.

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NE 1/4 - SE 1/4 of Sec. 19, Tp. 35 S.,
(Give smallest legal subdivision) (N. or S.)

R. 7 E., W.M., in the county of Klamath
(E. or W.)

5. The Main ditch to be 2640 feet
(Main ditch, canal or pipe line) (Miles or feet)

in length, terminating in the Lot 25 of Sec. 20, Tp. 35 S.,
(Smallest legal subdivision) (N. or S.)

R. 7 E., W.M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom

feet; material to be used and character of construction
(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 8" Close coupled Turbine with
(Size and type of pump)

Vertical direct-connected 40 H.P. Electric Motor. Physical lift from
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

normal high water to ground surface at gravel washing plant = 15 feet.

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line)3.0..... feet; width on bottom:1.0..... feet; depth of water1.0..... feet; grade1.0 ±..... feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe,1420..... ft.; size at intake,8"..... in.; size at Same..... ft. from intake in.; size at place of use8"..... in.; difference in elevation between intake and place of use,16.7..... ft. Is grade uniform? Yes..... Estimated capacity,3.5..... sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
T. 35 S.	R. 7 E.	20	Lot 16	2.4 Acres
			" 25	13.2
			" 27	19.1
			" 32	20.0
			" 33	20.0
			" 34	17.6 & Gravel washing
			" 35	17.7
			" 36	20.0
			" 37	20.0
				150.0 Acres

(If more space required, attach separate sheet)

(a) Character of soilSandy Loam.....

(b) Kind of crops raisedCereals, Legumes, Row Crops, and Pasture Grasses.....

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

(Legal subdivision)

Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(f) Is water to be returned to any stream?

(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$10,000.....

12. Construction work will begin on or before Pump already installed.....

13. Construction work will be completed on or before October 1, 1971.....

14. The water will be completely applied to the proposed use on or before October 1, 1972.....

Remarks: This filing is made for the dual purposes of diversion of water for Irrigation and for Gravel Washing. Generally, effluent from the washing operation, after passing through the settling lagoon, will be used for irrigation. However, the washing operation may be bypassed at certain times and the water used directly for irrigation. Also, during non-irrigation periods when only the gravel washing operation is being carried on, effluent from gravel washing, after retention in the settling lagoon will be spread upon the ground either by ditches or by sprinkler system. At no time will plant effluent be allowed to pass directly into the Williamson River. Minimum retention time in the settling lagoon will be 12 hours.

In filing this application, the applicant does not waive or abandon any vested rights appurtenant to said land.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By

ASSISTANT

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 6.75 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Williamson River

The use to which this water is to be applied is irrigation and gravel washing being 3.75 cfs for irrigation and 3.00 cfs for gravel washing

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year. This permit is issued subject to the maintenance and use of adequate treatment facilities to remove the sediment before returning the water to the stream

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 28, 1968

Actual construction work shall begin on or before November 7, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970.

Complete application of the water to the proposed use shall be made on or before October 1, 1971.

WITNESS my hand this 7th day of November, 1968.
