Remarks: The spring is located on the neighboring land to the east of our property. The past and present owners of this parent land have agreed to our full use of this spring and the necessary easements required to carry the water to our property, as evidenced by recorded affidavits and the recorded Deed of the parent land which are filed in the Deed Records of Hood River County.

This spring has been used as the sole domestic water supply for our orchard operation many years prior to 1927. While investigating the need for additional irrigation water rights for our orchard with the Dist. #3 Watermaster it became apparent that our rights to the subject spring were never properly filed through your office. Therefore, we are herewith filing for such rights to set the record straight with your office.
