Remarks: This application is to record the use of supplemental water from the Owyhee Federal Reclamation Project by the Owyhee Ditch Company pursuant to a contract with the United States of America dated August 3, 1928, as amended. Under this arrangement the lands served by the Owyhee Ditch Company are entitled to 21,000/715,000 of the water storable under the water certificates held by the United States for Owyhee Reservoir, R-599 and R-1764, to be released at Owyhee Dam for diversion and use by the Company, subject to the exchange provisions under contract of August 28, 1935, whereby substitute water and additional water is diverted at the Dunaway Pumping Plant from the Snake River under Water Right Certificate No. 24285. The priorities for these uses are governed by these storage and diversion water right certificates. This use of water has been practiced since the construction and operation of the Owyhee Federal Reclamation Project for approximately 30 years. The water involved is supplemental to the even longer established natural flow rights from the Owyhee River of the lands served by the Owyhee Ditch Company under a court adjudication decree entered before the construction and operation of the Owyhee Federal Reclamation Project. The lands described in this application are the listing of lands appearing in the court adjudication decree designated to be served from the facilities of the Owyhee Ditch Company.
