Remarks: ..... I, the applicant, have been informed of the State Water Resources Board's policy concerning the Umpqua River and its tributaries.

A dam is to be constructed to impound water for a supplemental supply for water right application Nos. 20016 and 41354, Permit Nos. 15587 and 30891. These permits are supplied from Ten Mile Creek but the exercise of prior rights deplete the supply in Ten Mile Creek to the point where not enough remains for these permits. Present distribution facilities will be used for the distribution of water from this source. Additional in accompanying application for construction of a dam and reservoir.
