x Charles E. Lauder  
(Signature of applicant)  
Mayer, City of Rainier

Remarks: Water from both Fox Creek and the Columbia River is to be used to supply the City, since the Fox Creek source is no longer adequate to meet the summer demands. The City plans to use the Fox Creek source almost exclusively since it is a gravity source and less expensive to supply and treat. The 0.95 cfs is in addition to the 0.3 cfs provided for in Permit No. 21029. The total of 1.25 cfs from Fox Creek is consistent with the present capacity of the water treatment plant.
