Remarks: We understand a logging firm will soon be logging this section & since the previous owners of our land didn't file to protect their only practical water source, we thought we'd better get it done. We've also written the Oregon Land Board about an easement or right-of-way to try to protect the spring & pipelines. You can see understand why we're hoping everything will go there. The spring should be easy to find as its right alongside an old cat road they used, to log out a neighboring section of state land.
