Remarks: 12 head of stock would be a approximate

number for the cattle water. The reason for diverting
water from the creek for stock water purpose is
that we do not want to muddy the creek
for the recreation purpose on my property and
Mr. Verley's property recreation rights. I plan to
keep the stock out of the no-name creek by
fencing them out of the creek.

The recreational use in the pond will
be mainly swimming.
