STATE ENGINEER  
SALEM OREGON

Permit No. **3050**

"CERTIFICATE NO. **55997**

**\*APPLICATION FOR PERMIT**

**To appropriate the Public Waters of the State of Oregon**

I, Robert L. Stevenson (Name of applicant)  
of 9003 West Evans Creek Road, Rogue River, (Mailing address)  
State of Oregon 97537, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Brown Gulch, Stevenson Reservoir, (Name of stream)  
#1 and #2 Springs, a tributary of Pleasant Creek. 0.08

2. The amount of water which the applicant intends to apply to beneficial use is 0.22 c.f.s.  
from Gulch & ~~two~~ springs & 4.00 c.f.s. from Res,  
cubic feet per second. see remarks  
(If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is supplemental irrigation, fire protec-  
tion, and domestic. (Irrigation, power, mining, manufacturing, domestic supplies, etc.)  
#1 (Brown Gulch)

4. The point of diversion is located 330 ft. N. and 40 ft. E. from the W<sup>1</sup>/<sub>4</sub>  
corner of Sec. 5 (SW<sup>1</sup>/<sub>4</sub> NW<sup>1</sup>/<sub>4</sub> Sec. 5); #2 Diversion (Brown Gulch) 140' S. & (Section or subdivision)  
1720' E. from W<sup>1</sup>/<sub>4</sub> cor. Sec. 5 (NE<sup>1</sup>/<sub>4</sub> SW<sup>1</sup>/<sub>4</sub> Sec. 5); Stevenson Reservoir -  
1380' N. and 825' W. from S<sup>1</sup>/<sub>4</sub> cor. Sec. 5 (NE<sup>1</sup>/<sub>4</sub> SW<sup>1</sup>/<sub>4</sub> Sec. 5); #1 Spring  
1370' N. & 330' E. from SW cor. Sec. 5; #2 Spring - 660' N. & 200' E.  
(If preferable, give distance and bearing to section corner)  
from SW cor. Sec. 5 (SW<sup>1</sup>/<sub>4</sub> SW<sup>1</sup>/<sub>4</sub> Sec. 5)  
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the 5 of Sec. 5, Tp. 35 S.  
(Give smallest legal subdivision) (N. or S.)  
R. 4 W., W. M., in the county of Jackson.  
(E. or W.)

5. The pipeline and ditch to be 6000 feet (est.)  
(Main ditch, canal or pipe line) (Miles or feet)  
in length, terminating in the SW<sup>1</sup>/<sub>4</sub> SE<sup>1</sup>/<sub>4</sub> of Sec. 5, Tp. 35 S.  
(Smallest legal subdivision) (N. or S.)  
R. 4 W., W. M., the proposed location being shown throughout on the accompanying map.  
(E. or W.)

**DESCRIPTION OF WORKS**

**Diversion Works—**

6. (a) Height of dam 2.0 feet, length on top 6 feet, length at bottom  
4 feet; material to be used and character of construction loose dirt & rock.  
(Loose rock, concrete, masonry,  
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate  
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 2 H.P. electric motor & 2" x 2"  
(Size and type of pump)  
centrifugal pump . . . domestic and fire protection gravity flow.  
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\*A different form of application is provided where storage works are contemplated.  
\*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... 2.0 ..... feet; width on bottom ..... 1.5 ..... feet; depth of water ..... 1.25 ..... feet; grade ..... 4.0 ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... 3500 ..... ft.; size at intake, ..... 2 ..... in.; size at ..... 1500 ..... ft. from intake ..... 2 ..... in.; size at place of use ..... 3/4 ..... in.; difference in elevation between intake and place of use, ..... 45 ..... ft. Is grade uniform? ..... Yes. ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

| Township<br>North or South | Range<br>E. or W. of<br>Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|----------------------------|---|---------|------------------|------------------------------|
| 35 S.                      | 4 W.  | 5       | SE 1/4 SW 1/4    | 8.0 acres - suppl.           |
| 35 S.                      | 4 W.  | 5       | SW 1/4 SE 1/4    | 8.0 acres - suppl.           |
| 35 S.                      | 4 W.  | 5       | SE 1/4 SW 1/4    | fire protection & domestic.  |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |
|                            |   |         |                  |                              |

(If more space required, attach separate sheet)

(a) Character of soil ..... clay loam.

(b) Kind of crops raised ..... orchard, truck garden and pasture.

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec. ...., Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

10. (a) To supply the city of .....

..... County, having a present population of .....

(Name of)

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied (2) two families.....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 800.00.....

12. Construction work will begin on or before one year from date of priority.....

13. Construction work will be completed on or before October 1, 1974.....

14. The water will be completely applied to the proposed use on or before October 1, 1975.....

Robert S. Stevenson  
(Signature of applicant)

Remarks: The irrigation part of this permit is to be supplemental to Application No. 44023 and Permit No. 32905.

Total amount of water to be appropriated is 0.08 and 4.0 c.f.s. being 0.06 4.0 c.f.s. from Brown Gulch and Stevenson Reservoir for suppl. irrigation, 0.20 c.f.s. from #1 Spring for fire protection and 0.01 c.f.s. from Spring #2 for domestic use. 0.06 c.f.s. from Gulch together with 0.14 c.f.s. under Per 32905 is the full duty for 16a. 4.0 c.f.s. from storage is to suppl amount available from direct flow, 0.6 ft

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

STATE ENGINEER

By ..... ASSISTANT

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.08 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Brown Gulch, 2 springs and Stevenson Reservoir to be constructed under application No. R-48946, permit No. R-5937

The use to which this water is to be applied is supplemental irrigation, fire protection and domestic use for 2 families, being 0.06 cfs from Brown Gulch and reservoir for supplemental irrigation, 0.01 cfs from spring #1 for maintenance of fire suppression system and 0.01 cfs from spring #2 for domestic use

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and reservoir to be constructed under permit No. R-5937.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is January 21, 1972

Actual construction work shall begin on or before April 24, 1974 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1975.

Complete application of the water to the proposed use shall be made on or before October 1, 1976.

WITNESS my hand this 24th day of April, 1973
