Remarks: The reason we need this Permit is to obtain a new source of water supply. The well (Permit G-310) went dry several years ago and since then we have been getting water from the City of Canyon City. During the crucial irrigation season, this supply has not always been sufficient for our needs and at any time may be cut-off entirely.

See enclosed map for new diversion point, to be terminated at the old well diversion point (Permit G-310).

STATE OF OREGON, }

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.275 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed spring

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 22, 1972

Actual construction work shall begin on or before April 24, 1974 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1975. Extended to Oct. 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1976.

WITNESS my hand this 24th day of April, 1973.
