(Signature of applicant)

Remarks: This application is for supplemental irrigation from an excavated sump for acreages already covered under existing rights (application no. 31984 Permit no. 28321)

The 4 inch plastic underground pipe from creek to disk was installed at the request of the Department of Environmental Quality to be used to pump liquid manure during high water times to be able to pump the manure under the flood water and come out on higher ground.

It is very possible I will use the reservoir as a repump station (if it doesn't require anymore of this paper work)

PERMIT

STATE OF OREGON,
County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.80 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from spring flow and reservoir to be constructed under application No. R-48418, permit No. R-5959.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2½ acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under permit No. R-5959, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall be limited to the use of stored water only on lands described as supplemental,

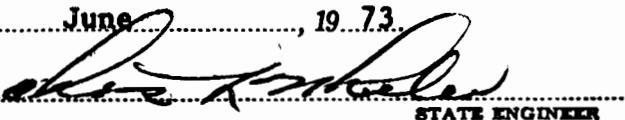

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 14, 1972.

Actual construction work shall begin on or before June 22, 1974 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1975.

Complete application of the water to the proposed use shall be made on or before October 1, 1976.

WITNESS my hand this 22nd day of June, 1973.
