

\*APPLICATION FOR PERMIT CERTIFICATE NO. 43096

To Appropriate the Public Waters of the State of Oregon

I, Taylor Lumber Company (Name of applicant) of P.O. Box 158 (Mailing address), Sheridan (City), State of Oregon, 97378 (Zip Code), do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is South Yamhill River (Name of stream), a tributary of Yamhill River

2. The amount of water which the applicant intends to apply to beneficial use is 100 gal. per minute cubic feet per second (If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Industrial (Irrigation, power, mining, manufacturing, domestic supplies, etc.) (Sawmill & wood treating plant) (see remarks)

4. The point of diversion is located 10 ft. N and 23 ft. W from the SE corner of John P. Woods DLC #14 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SE 1/4 NE 1/4 of Sec. 33, Tp. 55 (Give smallest legal subdivision) (N. or S.)

R. 6 W (E. or W.), W. M., in the county of Yamhill

5. The Main Pipe Line (Main ditch, canal or pipe line) to be (Miles or feet) in length, terminating in the NE 1/4 NE 1/4 of Sec. 33, Tp. 55 (Smallest legal subdivision) (N. or S.)

R. 6 W (E. or W.), W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 15 H.P. Cent. Pump and 5 H.P. Cent. primary pump App. 30' head (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\* A different form of application is provided where storage works are contemplated. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

**Canal System or Pipe Line—**

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

| Township North or South | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract  | Number Acres To Be Irrigated |
|-------------------------|---------------------------------------|---------|---|------------------------------|
| 55                      | 6 W                                   | 33      | NE <sup>1</sup> / <sub>4</sub> NE <sup>1</sup> / <sub>4</sub> | Industrial                   |
|                         |                                       | 33      | NW <sup>1</sup> / <sub>4</sub> NE <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       | 33      | SW <sup>1</sup> / <sub>4</sub> NE <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       | 33      | SE <sup>1</sup> / <sub>4</sub> NE <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       | 34      | NW <sup>1</sup> / <sub>4</sub> NW <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       | 27      | SW <sup>1</sup> / <sub>4</sub> SW <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       | 28      | SE <sup>1</sup> / <sub>4</sub> SE <sup>1</sup> / <sub>4</sub> | "                            |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |
|                         |                                       |         |   |                              |

(If more space required, attach separate sheet)

(a) Character of soil .....

(b) Kind of crops raised .....

**Power or Mining Purposes—**

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec. ...., Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

10. (a) To supply the city of .....

..... County, having a present population of .....

(Name of)

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before .....

13. Construction work will be completed on or before .....

14. The water will be completely applied to the proposed use on or before .....

Completed

Jos M. Stewart  
(Signature of applicant)

SUP.

Remarks: .....

Water treating will take place at Sheridan Pressure Treated  
Lumber Company, said company being an affiliate of  
Taylor Lbr. Company. Companies being located on adjacent  
property as shown on maps.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying  
maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with  
corrections on or before ....., 19.....

STATE ENGINEER

By ..... ASSISTANT

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.22 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from South Yamhill River

The use to which this water is to be applied is industrial (sawmill and wood treating plant)

If for irrigation, this appropriation shall be limited to \_\_\_\_\_ of one cubic foot per second or its equivalent for each acre irrigated \_\_\_\_\_

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 4, 1972

Actual construction work shall begin on or before August 27, 1974 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1975.

Complete application of the water to the proposed use shall be made on or before October 1, 1976.

WITNESS my hand this 27th day of August, 1973.
