By John E. McDonald, President.~~"Remarks" amended by 1-Hr 12-22-73~~

~~Remarks: The purpose of this application is to legally appropriate waters of Thomas Creek and an unnamed draw during the non irrigation season, during which time the bulk of run off waters drain to Goose Lake unused. Principally this period is after normal irrigation season at Oct 1 and continuing into April or May of the following year before heavy demands are needed for priority irrigation. It is my intent to divert excess waters of Thomas Creek and to take advantage of runoff from the unnamed draw by ditching and providing checks in the existing slough channels and thus provide both surface and subirrigation to the above lands. It is my contention that by providing this early subirrigation hay and pasture crops can be grown. I will expect to recognize all prior rights during the regular irrigation season.~~
