Remarks: In the original application for water through the O C Gray Ditch the point of diversion is shown as on one branch of Crooked River, and in order to raise the water it is necessary to maintain two dams, one of these is very liable to wash during the first of the irrigation season should this occur the water under that permit will be diverted at the point of diversion shown in this application and carried through the O C Gray Ditch extension to the O C Gray ditch as shown in original application until such time as the works can be repaired.
