(Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

for domestic supplies of 0.01 cu. ft. of water per second from unnamed stream & reservoir for esthetic purposes.

4. Description of Additional Point of Diversion

The point of diversion for the concrete dam is located S.2°21'09"E., a distance of 303.8 feet from the West 1/4 Corner of Section 34 being within the NW1/4 of the SW1/4 of Section 34, Tp. 2 S., R. 7 E., W.M. in the county of Clackamas.

10. (a) To supply the city of

(Name of) County, having a present population of

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied one family

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$..... 125.00 total Pipe 75.00 Labor 50.00

12. Construction work will begin on or before completed

13. Construction work will be completed on or before completed

14. The water will be completely applied to the proposed use on or before in use 10/1/66 -house construction completed on Pond 6/72.

Margaret T. Ellwood
Sheldon B. Ellwood
(Signature of applicant)

Remarks: Approx 1000-1200 ft from house...see map for point of diversion..plastic pipe leads water from holding tank on creek to house. Overflow from creek flows into pond, and out of pond via dam to creek (unnamed) which joins another unnamed creek which flows via a culvert under Truman Road into the Sandy River..all tributaries of Sandy River. Catch basin about 4' wide X 3 ft long..18" deep when full, constructed of rock & cement masonry. Plastic pipe leads water about 100' to 55 gal steel, glass lined tank, and water exits drum via 2" pipe on downstream side of tank. Pipe follows and is laid in stream bed..to within 100 ft of house. Pipe size reduces to 1 3/4 in, 100 ft before joining house pipe which is one inch. diameter. This system provides all and only domestic water for this home, and has been in continuous use since 1966 when we purchased this property. Prior to that water was furnished by this source to this property for domestic use since 1926...and as part of the original Crutcher homestead (1900 early) furnished water for the Ezra Truman Stage Stop (Old Barlow Road) now Truman Road). The entire Crutcher Bench homestead (Lolo Pass to Brightwood) contained vested rights in all probability, for water use from this source for this property, which was part of the original Crutcher parcel

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 13....., 1974...

WITNESS my hand this 13th day of September, 1974

CHRIS L. WHEELER
STATE ENGINEER

By Wayne J. Overcash
ASSISTANT

RECEIVED

STATE ENGINEER
SALEM, OREGON

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.02 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream and reservoir to be constructed under application No. R-51238, Permit No. R-6104

The use to which this water is to be applied is domestic use for one family and esthetics being 0.01 c.f.s. from unnamed stream for domestic and 0.01 c.f.s. from unnamed stream and reservoir for esthetic purposes

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. September 17, 1973 for domestic use

The priority date of this permit is and May 21, 1974 for esthetic purposes

Actual construction work shall begin on or before February 4, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 4th day of February, 1975

STATE ENGINEER
