Remarks: Diversion points A & B (see map) are for irrigation pumps with the total extraction from Panther Creek not to exceed .06 cfs total from both; diversion point C is a small (wrap around) dam and excavated pit which will hold water from the un-named drainageway beginning on the property and ending at points B and D on Panther Creek. The pond will be used for fish culture. The irrigation system (from A&B) will supply crops, grass, and serve as a make-up source for drainageway deficiencies for pond. Pond is not expected to use more than .01 cfs from the un-named drainageways.
