Remarks:

This application is for use of additional storage water in the reservoir for supplemental irrigation of an earlier right which is modified by a transfer filed with this application. There has been some nonuse of water under the old right but I do not believe it has been abandoned. If it should ever be held to have been abandoned then this application and accompanying reservoir application should be considered as primary irrigation. The ponds are created by excavation on two unnamed stream channels, 3 on each for aesthetic purposes. The 0.5 c.f.s. requested on each is to keep the ponds clean and from becoming stagnant.

This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed 1.69 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from 3 unnamed streams,
reservoir and 6 ponds to be constructed under Application No., R-52804, Permit No.
R-6116.

The use to which this water is to be applied is irrigation and supplemental irrigation
and aesthetic purposes being 0.69 c.f.s. from middle stream and reservoir for
irrigation, 0.5 c.f.s. from West stream and 3 ponds and 0.5 c.f.s. from east
stream and 3 ponds for aesthetic purposes.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per
second or its equivalent for each acre irrigated and shall be further limited to a diversion
of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation
season of each year, provided further that the right allowed herein shall be limited
to any deficiency in the available supply of any prior right existing for the same
land and shall not exceed the limitation allowed herein, and further limited to the
use of stored water only on the lands described as supplemental.

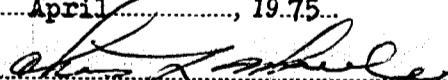

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is February 26, 1975.

Actual construction work shall begin on or before April 10, 1976 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976.

Complete application of the water to the proposed use shall be made on or before October 1, 1977.

WITNESS my hand this 10th day of April , 1975.
