Permit No. 37850

STATE ENGINEER
SALEM, OREGON

*APPLICATION FOR PERMIT

*CERTIFICATE NO. 54591

To appropriate the Public Waters of the State of Oregon

I, World Wildlife Safari
(Name of applicant)
of P. O. Box 600, Winston,
(Mailing address) (City)
State of Oregon, 97496, do hereby make application for a permit to appropriate the
(Zip Code)
following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

* If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is South Umpqua River
(Name of stream)
a tributary of Umpqua River

2. The amount of water which the applicant intends to apply to beneficial use is 3.35
cubic feet per second
(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is irrigation 2.1, stock 0.05,
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
Fire Control 1.00 & wildlife refuge including wildlife habitat & aesthetic purposes - 0.20 c.f.s.

4. The point of diversion is located ft. and ft. from the
(N. or S.) (E. or W.)
corner of N 30° W, 1020 ft. from S $\frac{1}{2}$ cor. sec. 9.
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 9, Tp. 28S
(Give smallest legal subdivision) (N. or S.)
R. 6W, W. M., in the county of Douglas

Letter dated 8-6-74 JLL

5. The pipe line to be 3 miles
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 19, Tp. 28S,
(Smallest legal subdivision) (N. or S.)
R. 6W, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—
6. (a) Height of dam feet, length on top feet, length at bottom feet;
material to be used and character of construction (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description (1) 5 HP Electric
(Size and type of pump)
(2) 40 HP Electric
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

Item #1 Stock Served:

African animals -

White beared Gnu	Brown Hyena
African Lion	Camels
Eland	Ostrich
Nyala	Striped Hyena
Demara Zebra	Aoudad
Grevy's Zebra	Grants Gazelle
Guinea Fowl	Scimitar Horned Oryx
Addax	Cheetah
African Elephant	Cape Hunting Dogs

Asian animals -

Nilgai	5 species of Asian Pheasant
Sika Deer	Yak
Black buck Gazelle	Gibbon
Asian Elephant	Mouflon Sheep
Pea fowl	Bengal tiger
Water buffalo	Sumatran tiger

North American -

Most all the various hoofed species along with the various bear, mountain lion, and other members of the cat family.

An eventual total of 1,000 animals will be kept in the reserve area.

Item #2

The flowing stream will be impounded at a number of small pond areas which will add an extreme esthetic value to the people as they observe various water fowl and the other animals in their natural environment along this water system.

These ponds must have a flow in order to keep them fresh and moving.

There are other existing water-hole features that are not in the regular creek system and must have water pumped to them; therefore the flow must be created in this creek.

Item #3

Along the road system we will install a sprinkler system to irrigate 20' both sides of road for fire control as well as aesthetic appearance.

The immediate areas next to road system are currently most hazardous because of people and cigarettes.

The source for this irrigation and fire control will be from one of the ponds that are developed within the water feature complex in the reserve area.

Application No. 50636
Permit No. 37859

RECEIVED

OCT 16 1973

STATE ENGINEER
SALEM, OREGON

Item # 4

There is no water in the unnamed draw to be utilized. The only time the draw flows is during heavy rains.

Item # 5

The total park as outlined on the map is the recreation area.

Item # 6

The stock ponds in and out of the stream are only to facilitate drinking and for appearance. The largest could only contain 0.01 acre feet or less.

Item # 7

We have shown estimated "Hydrant" locations throughout the park, but cannot give definite locations, or pipe sizes as the engineering has not yet been completed.

Item # 8

There are many stock watering facilities throughout the park as noted on the map.

Fire Control System: 40 HP pump at river. 6 inch main line to people area then reducing to a four inch following the road system throughout the park. There will be a hydrant every one-half mile.

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.35 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from South Umpqua River

The use to which this water is to be applied is irrigation, stock, fire control, and wild-life refuge being 2.1 c.f.s. for irrigation, 0.05 c.f.s. for stock, 1.0 c.f.s. for fire control system, 0.2 c.f.s. for wildlife refuge.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is June 11, 1973

Actual construction work shall begin on or before July 16, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977.

Complete application of the water to the proposed use shall be made on or before October 1, 1978.

WITNESS my hand this 16th day of July, 1975.
