Remarks: In July of 1968 the owner of the property upon which this spring is located and myself discovered this spring, and buried a plastic pipe in it, letting it run for a period of 6 months, to be sure that the supply was, both free from sediment and adequate to supply two family dwellings, gardens and lawns. We found it to be adequate and secured permission to cross property belonging to a third party with the pipe line, this being necessary to have a gravity flow system. We installed a 1700 gal. stainless steel tank and a 1 & 1/4 inch plastic line and have been using the water since Jan. 1, 1969.

Application for a water right is also being made by the forementioned owner of the property upon which the spring is located in conjunction with this application.
