Remarks: My husband and I purchased a 5-acre lot from Trenor and Helen Scott in April 1973 (point of use). Our contract and deed in escrow contain an easement for the proposed water line across the Scotts' property (the only intervening property between ours and the spring). The spring (point of diversion) is 30 feet beyond Scotts property on Bureau of Land Management Land. I have applied to the Bureau of Land Management for a permit to install a collection box at the spring and for the 30-foot of water-line installation on their property. A prerequisite for consideration of the BLM permit is this application for a water right.
