SALEM, OREGONPermit No. **39043**

## \*APPLICATION FOR PERMIT

CERTIFICATE NO. **42131****To Appropriate the Public Waters of the State of Oregon**

I, Donald R. Murray (Name of applicant)  
 of Route 2, Box 292-A (Mailing address), McMinnville (City),  
 State of Oregon (Zip Code) 97128, do hereby make application for a permit to appropriate the  
 following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Murray Creek and reservoir (Name of stream)  
constructed under Per. No. R-9695, a tributary of Berry Creek

2. The amount of water which the applicant intends to apply to beneficial use is 0.04  
 cubic feet per second (If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is irrigation  
 (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1410 ft. S and 450 ft. E from the NW  
 corner of Section 2 (N. or S.) (E. or W.)  
 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 NW 1/4 of Sec. 2, Tp. 4S,  
 (Give smallest legal subdivision) (N. or S.)  
 R. 5W, W. M., in the county of Jamhill  
 (E. or W.)

5. The \_\_\_\_\_ to be \_\_\_\_\_  
 (Main ditch, canal or pipe line) (Miles or feet)  
 in length, terminating in the \_\_\_\_\_ of Sec. \_\_\_\_\_, Tp. \_\_\_\_\_,  
 (Smallest legal subdivision) (N. or S.)  
 R. \_\_\_\_\_, W. M., the proposed location being shown throughout on the accompanying map.  
 (E. or W.)

**DESCRIPTION OF WORKS****Diversion Works—**

6. (a) Height of dam \_\_\_\_\_ feet, length on top \_\_\_\_\_ feet, length at bottom  
 \_\_\_\_\_ feet; material to be used and character of construction \_\_\_\_\_  
 (Loose rock, concrete, masonry,  
 rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate \_\_\_\_\_  
 (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 3 H.P. e.k. Pump  
 (Size and type of pump)  
 \_\_\_\_\_  
 (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.
- (b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.
- (c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

| Township North or South | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|-------------------------|---------------------------------------|---------|------------------|------------------------------|
| 4 S                     | 5 W                                   | 2       | 5 W 1/4 N W 1/4  | 2.95                         |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |

(If more space required, attach separate sheet)

- (a) Character of soil .....
- (b) Kind of crops raised .....
- Power or Mining Purposes—
9. (a) Total amount of power to be developed ..... theoretical horsepower.
- (b) Quantity of water to be used for power ..... sec. ft.
- (c) Total fall to be utilized ..... feet.  
(Head)
- (d) The nature of the works by means of which the power is to be developed .....
- (e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)
- Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)
- (f) Is water to be returned to any stream? .....  
(Yes or No)
- (g) If so, name stream and locate point of return .....  
....., Sec. ...., Tp. ...., R. ...., W. M.  
(No. N. or S.) (No. E. or W.)
- (h) The use to which power is to be applied is .....
- (i) The nature of the mines to be served .....

..... County, having a present population of .....

(b) If for domestic use state number of families to be supplied .....

**(Answer questions 11, 12, 13, and 14 in all cases)**

14. The water will be completely applied to the proposed use on or before .....

**WITNESS** my hand this ..... day of ....., 19.....

STATE ENGINEER

By ..... ASSISTANT

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.04 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Murray Creek and Reservoir constructed under Permit No. R-4695

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir constructed under Permit No. R-4695

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 22, 1974

Actual construction work shall begin on or before December 22, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977.

Complete application of the water to the proposed use shall be made on or before October 1, 1978.

WITNESS my hand this 22nd day of December 1975.

James E. Larson  
STATE ENGINEER  
WATER RESOURCES DIRECTOR

Application No. 51867  
Permit No. 39043

PERMIT

TO APPROPRIATE THE PUBLIC  
WATERS OF THE STATE  
OF OREGON

This instrument was first received in the  
office of the State Engineer at Salem, Oregon,  
on the 22nd day of April,  
1974, at 4:30 o'clock P. M.

Returned to applicant:
