of Property

Remarks: Legal Description: Beginning at the Northwest corner of the North east Quarter of the South east Quarter of the above Section; hence East 330 ft., hence South 660 ft. hence West 330 feet, hence 660 feet to point of beginning.

Pond

The pond is 25' x 50', x 4' max depth, it was apparently dug by a trackter, has a dirt dyke to the south. It is fed by a spring to its north, (not shown) also it does receive water from applied for spring. My main concern for its being is that it is the only water of any quantity (however small it may be) in the case of a fire, anywhere in this several Thousand acre area. The people in this area seem to feel it is good. I do wish to, if I may without further involving myself, have mentioned pond included on my application.
