Remarks: This property was homesteaded in 1879 by my grandparents Callahan. I have lived on it all my life, during which time we have used the waters from Jackson Creek for irrigation purposes and the water from the number (1) spring for the house. In 1961 when I built my new home, my brothers and I split the family's property, and the property line between my brother Donald's land and mine runs between the number (1) spring on my land and the pump house on his. The number (2) spring is on my land and is not in use at this time, as a reserve water supply.

In case of a breakdown on #1 spring and pump, #2 can be turned on.
