Remarks: This project has been planned & researched over the last 2 years. The following are some of my sources of information used in planning this project. Extension Soc. Oregon State Univ. U.S. Dept of Agriculture, Soil Conservation Service, U.S. Fish & Wildlife Service and a Book published by Jumping Rainbow Ranch "Livingston Montana titled trout farming. This operation will consist of five calif raceways in series 120' x 10' at Ballon x 30 at a water depth of 3 1/2' with a central box spillway between each raceway and a catch out pond approx 400' L x 30' W x 6' D. The capacity of a raceway type open is based on water flow considering temp, oxy content & etc. Considering all factors a supply of 5 CFS would be adequate for this size operation — Fish License 8-018984
