Remarks: *This application is for the use of water outside the normal irrigation season the period applied for is Oct. 1 to March 31*

This application is not for additional water, but is a request to use part of my allotment outside the normal season. The reason Rock Creek has no water from May 15 or June 1 till at least Oct 15 quite often later. To be able to irrigate once in the fall, and in early March would be a great help to the crop.

The amount of water I would apply during off season would not exceed 1 Acre ft

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.55 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Rock Creek

The use to which this water is to be applied is irrigation. The use allowed herein may be made anytime between October 1 and March 31 that water can be put to beneficial use by irrigation, either for immediate crop growth or for forecast requirements to raise the soil moisture to field capacity in the soil profile to be utilized by plant growth in the subsequent growing season.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 1/2 acre feet per acre for each acre irrigated during the period from October 1 to March 31, provided further that the right allowed herein, together with the amount secured under any other right existing for the same land shall not exceed 4 acre feet for each acre irrigated in any one year. The use of water authorized herein shall be subsequent in priority and inferior to any future irrigation project developments for storage during the winter season and later use during the period of maximum crop demand. Sufficient flow shall be left in Rock Creek to provide stockwater throughout its course during the period of use authorized herein and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 1, 1976

Actual construction work shall begin on or before June 23, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 23rd day of June 19 76
