Remarks: We do not know whether these permits are usually granted or denied but we ask kindly that you allow us this permit. Mr. Eastman was forced into early retirement due to M.S. and we are trying desperately to hold on to our home in these inflationary days. We have no income other than a small amount of social security benefits and we cannot afford to deepen our shallow well to irrigate our small garden spot due to the extreme costs of having this done. We look to our garden for food to sustain us through the winter and need this garden a lot. We use very little water but it means the difference between a garden and no garden. Thank you very much for your consideration.
