Remarks: The Dalles Irrigation District has applied for water right on most of the acreage proposed to be irrigated within its boundaries. This appears to be a little short in some areas of what we propose to irrigate. The irrigation district attorney feels that application for water right on such additional acreage should be made by the individual operators. All water for such irrigation would be supplied thru existing pipe lines, turn outs, & pumping stations of the Dalles Irrigation District and would be used only within the boundaries of the District.
