Permit No. 40913

"CERTIFICATE NO. \_\_\_ 54211

## \*APPLICATION FOR PERMIT

## To Appropriate the Public Waters of the State of Oregon

| I, Edmund Duyck (Name of applicant)                                                                           |                                        |
|---------------------------------------------------------------------------------------------------------------|----------------------------------------|
| of Route 2, Box 566, 2020 S W 325 Mar, Hillsboro                                                              |                                        |
| (Mailing address)                                                                                             |                                        |
| State of <u>Oregon</u> , <u>97123</u> , do hereby make application for a permit to approprie                  | ite the                                |
| following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:                         |                                        |
| If the applicant is a corporation, give date and place of incorporation                                       |                                        |
| 1. The source of the proposed appropriation isExcavated Reservoir(Name of stream)                             |                                        |
| , a tributary of                                                                                              |                                        |
| 2. The amount of water which the applicant intends to apply to beneficial use is                              |                                        |
| tubic feet-per second 2 Acre Feet (If water is to be used from more than one source, give quantity from each) |                                        |
| 3. The use to which the water is to be applied isIrrigation                                                   | :s, etc.)                              |
| 4. The point of diversion is located 410 ft. N and 1500 ft. E from the                                        | SW                                     |
| corner of Section 1 R3W T1S (Section or subdivision)                                                          |                                        |
|                                                                                                               |                                        |
|                                                                                                               |                                        |
| (If preferable, give distance and bearing to section corner)                                                  |                                        |
| (If there is more than one point of diversion, each must be described. Use separate sheet if necessary)       | · · · · · · · · · · · · · · · · · · ·  |
| being within the SE' SW, of Sec. 1, Tp. 15                                                                    |                                        |
| (Give smallest legal subdivision)                                                                             | ır S.)                                 |
| R. 3W , W. M., in the county of Washington                                                                    |                                        |
| 5. The to be (Main ditch, canal or pipe line) (Miles or feet)                                                 |                                        |
| in length, terminating in the                                                                                 |                                        |
| · · · · · · · · · · · · · · · · · · ·                                                                         |                                        |
| R, W. M., the proposed location being shown throughout on the accompanying 1                                  | map.                                   |
| DESCRIPTION OF WORKS                                                                                          |                                        |
| Diversion Works—                                                                                              |                                        |
| 6. (a) Height of dam feet, length on top feet, length at                                                      | botton                                 |
| feet; material to be used and character of construction(Loose rock, concrete                                  | e, masonry                             |
| rock and brush, timber crib, etc., wasteway over or around dam)                                               | ••••••                                 |
| (b) Description of headgate (Timber, concrete, etc., number and size of openings)                             |                                        |
| (c) If water is to be pumped give general description30 H.P. Electric (Size and type of pump)                 |                                        |
| (Size and type of engine or motor to be used, total head water is to be lifted, etc.)                         | ······································ |
|                                                                                                               | ••••••                                 |

<sup>\*</sup>A different form of application is provided where storage works are contemplated. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                             |                   |                                      | feet; width on bottom           |
