Remarks: This application is to get the max. amount of water for 302.3 acres. Insufficient water was applied for under Permit 29779, Cert. 39091 which did not permit enough water for the land. The amount of water applied for in this application is the difference between the max. amount of water allowed out of Pine Creek for 302.3 acres, which is 4.84 C.F.S. and the amount of water filed under permit 29779, which was 2.09 C.F.S. With this added amount of water I will be able to irrigate my land more sufficiently, in which case I couldn't before.
