(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of
..... County, having a present population of
(Name of)
and an estimated population of in 19.....

(b) If for domestic use state number of families to be suppliedtwo.....

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$.....None.....Already in existence.
- 12. Construction work will begin on or beforeConstruction work is completed.....
- 13. Construction work will be completed on or beforeCompleted.....
- 14. The water will be completely applied to the proposed use on or before

The water has been put to the uses specified for many years.

Mark R. Beattie
(Signature of applicant)
Rolland C. Beattie

Remarks: This water supply and system has been used since this ranch was homesteaded by the applicant's parents many years ago. No changes are contemplated either in the structures and distribution system or in the volume of use. Future use conforms to the figures and maps enclosed with the application.

..... The water supply and system on this ranch is to be used for stock watering, dairy barn use; such as washing cattle and cleaning up the parlor. Water is also to be used for domestic use of two residences and for personal garden of less than one half acre which is noncommercial lawn and garden. There are two stock watering facilities that are not located in the dairy barn, but both are less than 100 feet from the barn and are shown on the attached map.

..... There is one dairy barn half of which lies within Section 13 and the other half of which lies in Section 18.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

41323

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.03 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream

The use to which this water is to be applied is domestic use for two families including the irrigation of lawn and garden not to exceed 1/2 acre in area, stock use, and dairy barn use, being 0.01 c.f.s. for domestic, 0.01 c.f.s. for stock, and 0.01 c.f.s. for dairy barn use.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is January 4, 1977

Actual construction work shall begin on or before March 21, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 21st day of March 1977
