Application No. 52769 + ~~52770~~
Permit No. 41436

10. (a) To supply the city of Rural domestic water system, Grand Ronde Domestic Water Assoc. in Polk & Yamhill County, having a present population of 1,050 and an estimated population of 2,000 in 1990

(b) If for domestic use state number of families to be supplied 250 - 400

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 750,000
12. Construction work will begin on or before June 1975
13. Construction work will be completed on or before October 1976
14. The water will be completely applied to the proposed use on or before October 1977

M.S. Kautzsch 2/10/75
(Signature of applicant)
Association Engineer

Remarks: The initial planned number of services will be between 250 and 400. The future number will probably increase to 600 on a long term projection. Water system will initially serve a rural community and adjoining farm lands with some commercial and industrial demands. Water rights equal to the weired spring capacity (400 gpm) with 200 gpm filed for domestic and stock watering needs and 200 gpm filed for quasi municipal for commercial and industrial and all other system demands not covered by domestic and stock watering definition. This quasi municipal right will be supplemented by other older rights to be acquired and transferred from lower reaches of Rock Creek to insure against curtailment of water use during periods of low stream flow and peak water right demands for water.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

PERMIT
41436

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.44 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from a spring area

The use to which this water is to be applied is group domestic use and stock use

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated _____

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is February 10, 1975

Actual construction work shall begin on or before April 27, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 27th day of April, 1977
