Remarks: I have a permit #38048 for irrigation purposes; I am applying for stock water from the same source; The previous permit inadvertently omitted to-apply for stock water also.

Water has been coming through the unnamed spring for over 25 years to my knowledge. I have a pipe inserted into the ditch by which water is passed to a trough. The number of head drinking out of this trough is just 2 milk cows, a beef and a few head of sheep. It is just for barnyard purposes. No new construction nor expense is involved. No changes are anticipated.
