WATER RESOURCES DEPT  
SALEM, OREGON

\*APPLICATION FOR PERMIT

CERTIFICATE NO. 49850

### To Appropriate the Public Waters of the State of Oregon

I, Edgar W. White (Name of applicant)

of 2824 South River Road (Mailing address), Grants Pass (City),

State of Oregon, 97526 (Zip Code), do hereby make application for a permit to appropriate the

following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is ~~waste and seepage from drainage~~ (Name of stream)  
swale unnamed, a tributary of Rogue River

2. The amount of water which the applicant intends to apply to beneficial use is .009  
cubic feet per second (If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is irrigation  
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1190 ft. N and 450 ft. E from the SW  
corner of Sec. 14 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4 SW 1/4 (Give smallest legal subdivision) of Sec. 14, Tp. 36 S  
(N. or S.)

R. 6 W, W. M., in the county of Josephine  
(E. or W.)

5. The pipeline (Main ditch, canal or pipe line) to be 300 feet (Miles or feet)  
in length, terminating in the NW 1/4 SW 1/4 (Smallest legal subdivision) of Sec. 14, Tp. 36 S  
(N. or S.)

R. 6 W, W. M., the proposed location being shown throughout on the accompanying map.  
(E. or W.)

#### DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam ..... feet, length on top ..... feet, length at bottom  
..... feet; material to be used and character of construction .....  
(Loose rock, concrete, masonry,  
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate .....  
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 2 x 1 1/2 centrifugal (Size and type of pump)  
Electric 5 HP 2 foot head  
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\* A different form of application is provided where storage works are contemplated. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 300 ..... ft.; size at intake, 2 in. in.; size at 300 ..... ft. from intake 1½ ..... in.; size at place of use 1 in. in.; difference in elevation between intake and place of use, 2 ..... ft. Is grade uniform? yes ..... Estimated capacity, .25 ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
36 S	6 W	14	NW¼SW¼	0.26 acre
"	"	"	SW¼SW¼	0.50 acre

(If more space required, attach separate sheet)

(a) Character of soil fine sandy loam .....

(b) Kind of crops raised Garden and field crops .....

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec. ...., Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

Municipal or Domestic Supply—

10. (a) To supply the city of .....

(Name of)

County, having a present population of .....

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 300.00

12. Construction work will begin on or before .....

13. Construction work will be completed on or before April 1, 1978

14. The water will be completely applied to the proposed use on or before July 2, 1978

Edgar W. White (Signature of applicant)

Edgar W. White

Remarks: Correction and amendment application Permit No. 55532 as per your ltr. dated June 22, 1977.

The request for permit to utilize water for irrigation from unnamed stream is for supplemental irrigation. The water that is in the unnamed stream is waste water from irrigation of lands higher than mine from Grants Pass Irrigation District during irrigation season and winter rain drainage. The water that will be utilized would otherwise return to the Rogue River at a point approximately 1 1/2 miles west of my pickup point. My point of pickup for irrigation water from Grants Pass Irrigation District is a 1/4 mile south of my property over rolling land that requires the maintenance of a flume over property owned by others. The water is delivered on a ten day schedule which is not sufficiently often for growth of crops on my land which is river silt that has a extremely high percolation. Presently my flume has been dismantled for the installation of the Redwood Sewer District interceptor and it will be some time before it can be replaced. I could get all my irrigation water from the unnamed stream if I could be sure that subdivision of land above me would not cut off flow of water from now irrigated land. The possibility exists that the installation of the sewer may alter the course of the water now flowing in the unnamed stream so that it may follow the course of the sewer line which is up to 26 feet deep where it crosses above my property. If I were to disclaim my water right to Grants Pass Irrigation water for the supplemental source I would be without water for irrigation. My use of water from the unnamed stream actually recycles Grants Pass Irrigation Water without additional expense to the district to provide water to me. I am in the process of installing sprinklers in the pasture area and will extend them into my truck garden area which will make for greater utilization of the water.

STATE OF OREGON, } ss. County of Marion, }

Edgar W. White 7-15-77

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before August 22, 1977

RECEIVED JUL 18 1977

WATER RESOURCES DEPT SALEM, OREGON 977

WITNESS my hand this 22nd day of June

James E. Sexson, Director

XXXXXX ENGINEER

By Vestal R. Garner ASSISTANT

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.01 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed stream

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 21, 1977

Actual construction work shall begin on or before October 10, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979.

Complete application of the water to the proposed use shall be made on or before October 1, 1980.

WITNESS my hand this 10th day of October 1977.

James E. Skason  
Water Resources Director
