Remarks: Some of the information requested is not readily available. We are planning to use water from a year round spring for domestic uses. The pump will be placed at the spring location on top of a 6' deep 4' dia. holding tank. The water will be pumped up hill ~ 100' to a 29 gallon capacity ~~holding~~ ^{pressure} tank. From there water will be distributed to the house & barn. Pipe diameter from pump to pressure tank - 1/4". We are presently getting water piped to us from a neighbors well. The overflow from the spring flows into a pond (see Reservoir permit NO. R5294 filed by S. Kraxberger application No. 44813, permit No. 33517 in 1969 - we are buying S. Kraxberger property)
