

Application No. 54641

Permit No. 42472

RECEIVED STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for Permit to Appropriate Surface Water

WATER RESOURCES DEPARTMENT SALEM, OREGON Ted Orr

(Name of Applicant)

of RT 1 Haines (Mailing Address) (City)

State of Oregon 97833 Phone No. do hereby (Zip Code)

make application for a permit to appropriate the following described waters of the State of Oregon:

- 1. The source of the proposed appropriation is Powder River & an Unnamed Slough, a tributary of Powder River River Slough 4250 ft. N and 1400 ft. E 2. The point of diversion is to be located 4950 ft. N and 2120 ft. E from the W 1/4 corner of Section 14 (Public Land Survey Corner)

(If there is more than one point of diversion, each must be described)

being within the NE 1/4 of the SW 1/4 of Sec. 11 Tp. 7S R. 39E, W. M., in the county of Baker (N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Rows include sections 12, 13, 7, 18 and various quarter-sections with acreage values like 11.0, 37.0, 39.6, 23.6, 20.8, 40.0, 40.0, 7.2, 219.2.

4. The amount of water which the applicant intends to apply to beneficial use is 2.79
cubic feet per second from Powder River with deficiency from the
Slough - see remarks. (If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is Irrigation of
219.2 acres.

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

water is diverted from Powder River
by ditch and pipeline to booster
pumps on the land to be irrigated.
This is an enlargement of an existing
system (cut 37978 for Powder River,
application 53601 for supplemental from
the slough). additional pumps
and pipelines will be installed
and center pivots, wheel lines,
and portable sprinkler systems
will be used.

If for domestic use state number of families to be supplied.....

7. Construction work will begin on or before 5/1/78

8. Construction work will be completed on or before 10/1/78

9. The water will be completely applied to the proposed use on or before 10/1/79

Application No. 54641

Permit No. 42472

1978

Remarks:

the slough, in its natural state, disipated in natural wild meadow without a defined channel discharging into powder River. Channel improvements, drainage, & irrigation developments upstream of the slough provides water at the div. pt. on the slough at times when Powder River maybe defecient.

Application No. 54641

Permit No. 42472

Application No. 54644

Permit No. 42472

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.79 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Powder River, with any deficiency in the available supply from Powder River to be made up by diversion from an unnamed slough.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 10, 1976

Actual construction work shall begin on or before January 20, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

Extended to Oct. 1 1981

WITNESS my hand this 20th day of January, 1978

James E. Seymour
Water Resources Director
