1. The source of the proposed appropriation is Johnson Springs

any stream-channel discharges Sec 15, a tributary of Water never reaches

2. The point of diversion is to be located ft. and ft.
(N. or S.) (E. or W.)

from the corner of
(Public Land Survey Corner)

N 41° 54' E - 147.1 feet from the SW
(If there is more than one point of diversion, each must be described)

corner NE 1/4 NW 1/4 Sec 22 T. 17.5 R. 44 E. W.M.

 being within the NE 1/4 of the SW 1/4 of

Sec. 22 Tp. 17.5 R. 44 E., W. M., in the county of Maitland
(N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
<u>175</u>	<u>44E</u>	<u>22</u>	<u>NENW</u>	<u>29</u>
			<u>NWNW</u>	<u>9</u>

Supplemental to Vale OR 1779 Dist.

4. The amount of water which the applicant intends to apply to beneficial use is 1/2

cubic feet per second..... Spring 5. Run approx 1 cfs and
(If water is to be used from more than one source, give quantity from each)

The remainder is waste water from Johnson Land. No waste water from other lands.

5. The use to which the water is to be applied is Irrigation

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Applicant has a feed lot in NE corner of NE 1/4 NW 1/4.

Will construct a combination road fill and dam at North end of spring area. The dam or fill will be 18-20' wide on top and 12' wide on the bottom. A 10" conc pipe over flow will be installed 2' below crest as an emergency spillway. A 6" PVC pipe will be installed near the bottom of the fill with an Arnee Gate. During winter months the Gate will be kept open to allow spring water to flow for stock water.

The spring area will be cleaned out to permit approx 200 feet of over night storage during irrigation season.

If for domestic use state number of families to be supplied

7. Construction work will begin on or before May 1 1977

8. Construction work will be completed on or before June 1 1979

9. The water will be completely applied to the proposed use on or before June 1 1980

Application No. 56793 Permit No. 42597

BRUDS

TS20A

Remarks: A 7 1/2 HP GE Pump Electric will be installed to pump water to Conner located near existing ditch in NW 1/4 of Section 10, T14N, R10E. From there water will be conducted through gate pipe and existing ditch as shown on plan. By using both wash water and spring flow, applicant can more adequately irrigate irritable lands. During drought years applicant was out of water in July.

Application No. 56793

Permit No. 42597

Application No. 516793

Permit No. 42597

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Johnson Springs.

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 24, 1977

Actual construction work shall begin on or before February 13, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 13th day of February, 1978

James E. Skusek Water Resources Director
