Remarks: It will be noted that my address is Beswick, California, but will say that I have homesteaded the lands above described and of course am residing on same. There is one fairly good spring on the 80 acres described and two small ones which may be developed, as indicated on the accompanying map. I have had no accurate measurement made of the amount of water at present available but believe that I can get enough to irrigate 32 acres fairly well. For the reason that I am compelled to work at times away from my homestead I am not sure that I can get the entire 32 acres in shape to irrigate before July 1, 1921, and hence have named that date, but hope to have the work completed much sooner.
