

4. The amount of water which the applicant intends to apply to beneficial use is ..... 21.61 .....

cubic feet per second..... see remarks .....

(If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is ..... irrigation and supplemental irrigation .....

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Water diverted from each spring by man-made ditches- all water used as de-  
scribed herein is collected in drainage ditches wholly contained on the  
applicant's land and all water can be applied to all lands since the land  
is level.

If for domestic use state number of families to be supplied .....

7. Construction work will begin on or before .....

8. Construction work will be completed on or before .....

9. The water will be completely applied to the proposed use on or before..... completed

Application No. 55798 .....

Permit No. 43104 .....

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

PL

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 21.61 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from springs, waste, and drainage; being 11.61 c.f.s. from springs and drainage, and 10.0 c.f.s. from waste water.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to compel the continuance of the waste water.

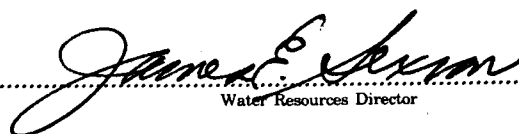

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is May 2, 1977

Actual construction work shall begin on or before June 22, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 22nd day of June, 1978

  
Water Resources Director
