domestic use.....

6.

#### DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The City of Ontario intends to expand its present water treatment plant capacity to 13 MG.D. capacity and construct a river intake. We will also construct an additional 10 million gallon storage reservoir with booster pumping facilities as well as additional distribution system links. We are using the year 2000 as our design year with a projected population of 15,500 persons with some additional capacity built in for present and future industrial development.

If for domestic use state number of families to be supplied ..... 5100.....

7. Construction work will begin on or before ..... 1978.....

8. Construction work will be completed on or before ..... 1985.....

9. The water will be completely applied to the proposed use on or before ..... 2000.....

Application No. .... 57572 .....

Permit No. .... 43401 .....

Remarks: The initial work shall consist of retrofitting our old water treatment plant which had previously had a river intake. We will implement this in the summer of 1978. However, the major construction will not begin in 1980
