Application No. 55735

Permit No. 43518

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 22.26 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from East Fork Hood River.

The use to which this water is to be applied is Frost protection, spray water, stock water, and fire protection; being 21.66 c.f.s. for frost protection, 0.5 c.f.s. for spray water, 0.05 c.f.s. for stock water, and 0.05 c.f.s. for fire protection.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated. The permittee shall record and submit annually to the Water Resources Department all pertinent data pertaining to use of water for temperature control (frost protection) on forms furnished.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 22, 1977 for 8.0 c.f.s., September 8, 1978 for 14.26 c.f.s.

Actual construction work shall begin on or before October 13, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 13th day of October, 1978

James E. Scovron
Water Resources Director
